

# Eden Economy Tracking Sheets

## Instructions

### Greetings!

Thanks for participating in the Eden Economy Challenge! To help you navigate through the challenge, we have made 3 different types of tracking sheets:

1. Monthly Expenses
2. Categorized Expense Totals
3. Challenge Results

The Monthly Expenses sheet is designed to help you keep record of everything that you spend for the duration of the two-month challenge. Feel free to print off as many of these sheets as you would like. In addition, you can separate the sheets for each month. The Monthly Expenses tracking sheet has the following categories: Date, Description, Expense Category, SDA Total, and Non-SDA Total.

**All that you purchase should be categorized into one of the following expense categories:**

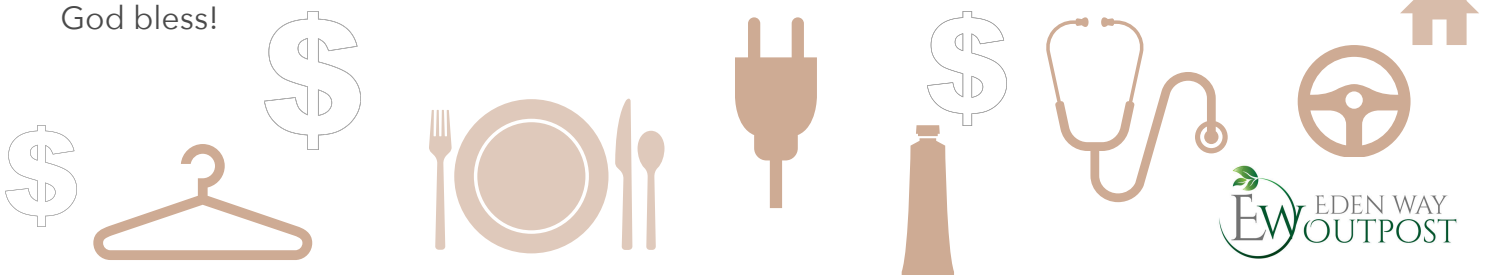

1. Food & Drink
2. Bath & Body
3. Personal
4. Housing
5. Utilities
6. Transportation
7. Medical

Please be mindful to put one of the seven categories listed when filling out the Monthly Expenses sheet. By doing so, it will help you to successfully fill out the other tracking sheets. Here is an example of a correct monthly expense entry, below. Notice that the "Food & Drink" insert is one of the seven categories above.

DATE	DESCRIPTION	EXPENSE CATEGORY	SDA TOTAL	NON-SDA TOTAL
3/6/19	Carob Bars	Food & Drink	\$4.50	

Furthermore, after completing the Monthly Expenses tracking sheet, use the data to plug into the Categorized Expense Totals sheets. Then, use the data from the Categorized Expense Totals sheets to plug into the Challenge Results sheet. By the end of the challenge, you will be able to practically see how much you spent on SDA resources compared to non-SDA resources. The aim of the challenge is for 50% of your expenditures to be from SDA sources. After your challenge is complete, please don't forget to take the survey on our website at [www.molministry.com/edeneconomy](http://www.molministry.com/edeneconomy). We would love to hear about your experience! Also, if you have any questions along your journey, please feel free to ask. We are here to serve you!

God bless!

## Where is the majority of your money going?

- A. Babylon's collapsing economy
- B. Our own God-given economy

### Another Ark to Build

After taking the Eden Economy Challenge, the majority of us (if not all) are probably beginning to see the gravity of the situation. "The world is fast becoming as it was in the days of Noah. Satan is working with intensity of effort, knowing that he has but a short time. Wickedness prevails to an appalling extent. God's people are but a handful, compared with the ungodly, and we can gain success only as we co-operate with the heavenly

angels, who will go before all who **press forward to do that which God has said should be done**" {RH June 15, 1905}. In this last generation, with the problem of buying and selling just before us, what should be done? What should be established to help those who are loyal to God, during a time when they are cut off from Babylon's system of living? My friends, an Eden Economy: God's system of living that is sustained by co-operating with Him, the heavenly angels, and

each other. In fact, this is how it was in the beginning. "The Garden of Eden was a representation of what God desired the whole earth to become..." {ED 22}. Thus, there is something for each of us to do. **Take the next step** and share your experience with us, by taking a survey on our website!
